

Scandinavian Academy of Esthetic Dentistry

Annual Scientific Meeting 2002

Den skandinaviske foreningen for estetisk tannbehandling, SAED, avholder sitt 7. årsmøte i Oslo kommende høst. Her møtes interesserte tannleger og tannteknikere fra Norge, Sverige, Danmark og Finland for faglig kurs og sosialt samvær. Årets møte er åpent for alle interesserte og programmet har innslag fra flere fagdisipliner.

«A Contemporary Approach towards Excellence»

Hovedforedragsholderne er Nitzan Bichacho og Rafi Romano, henholdsvis protetiker/allmennpraktiserende tannlege og kjeveortoped. I kurset legges det spesielt vekt på samarbeid mellom tannlege og kjeveortoped ved behand-

ling av voksne pasienter.

Foredragsholderne presenterer forskjellige protetiske løsninger, kompliserte restaureringer i kompositt og lingualt plassert ortodontisk apparatur. Teknikker som er lette å ta i bruk i praksis demonstreres.

Søndag foreleser Carsten Blok om maskinelle hjelpemidler ved endodontisk behandling, oppbygging av konus og den ferdige restaurering.

Professor Karl Erik Kahnberg presenterer kasus med større kirurgiske inngrep og gjennoppbygging i ansikt og kjeve. Det blir dessuten en presentasjon for tannteknikerne.

Lørdag kveld arrangeres en felles festmiddag.

Septocaine®

artikain

...det moderne valg - optimal effekt med mindre adrenalin

- Kortere halveringstid = bedre sildkerhet
- Bedre fettløslighet = økt effekt*

**Septocain Forte har i tillegg ekstra lang virkning
(ved ønske om blodtomhet og ischemi)**

1) According to our recent studies the articaine in pediatric dentistry is particularly advantageous because of the lower serum concentrations and the shorter half-life of the drug! (Günther M.
